SUMMARY

Motivated B.Tech student at JECRC University with a strong interest in Data Analytics, Data Cleaning, Business Intelligence, and AI-powered data tools. Developing practical skills in Excel, SQL, Power BI, Python, data visualization, and dashboard creation. Interested in applying analytical and problem-solving skills to real-world datasets and building useful data-driven solutions. Seeking an entry-level Data Analyst / Data Analytics Intern opportunity.

EDUCATION

JECRC University, Jaipur

Bachelor of Technology (B.Tech)

Currently in 2nd Year

PROJECTS

AI-Powered Data Cleaning & Analysis Tool | Personal Project

- Developing an AI-assisted tool designed to simplify Excel data cleaning and analysis.
- Working toward automated identification of missing values, duplicate records, inconsistent data, and formatting issues.
- Designed to allow users to upload spreadsheet data and receive useful analytical insights.
- Exploring AI-assisted summaries, charts, and recommendations from uploaded datasets.

Sales & Purchase Dashboard | Data Analytics Project

- Created a dashboard concept for analyzing sales and purchase data.
- Organized business data into structured tables for analysis.
- Used charts, KPIs, and reports to make business performance easier to understand.
- Designed reporting views suitable for daily, weekly, monthly, and quarterly analysis.

Data Processing & Excel Automation | Practical Project

- Worked with structured business data including customer, vendor, invoice, sales, and purchase records.
- Practiced data cleaning, validation, organization, formatting, and reporting.
- Converted and organized data from different formats into usable spreadsheet structures.

Personal Portfolio Website | Web Project

- Building a personal portfolio website to showcase technical skills and data analytics projects.
- Designed sections for projects, skills, services, and professional information.
- Working on presenting projects in a clean and professional format for recruiters and clients.
